### MEXICO BORDER GRANT YEAR 2005 NARRATIVE STATEMENT

(R9 Tracking Number 05-316)

The Mexico Border 105 Grant finding for Federal Fiscal Year 2005 will be used to continue the ambient air monitoring programs in Tijuana, Tecate, and Mexicali, Mexico as well as Calexico, California. Additionally, work efforts to facilitate the transfer of the air monitoring network located in Mexico, to the Mexican Government will increase. The total is \$525,000, which will be spent as follows:

### Monitoring and Laboratory Portion:

Current funds of \$510,000 have been allocated for the purchase, maintenance, and operation of air monitoring instruments and also for training Mexico on the complete operation of an air monitoring network. ARB plans to continue providing a border coordinator to assist our Mexican counterparts on air pollution/monitoring related issues, laboratory analysis, performance audits, repair services, training, and to oversee a contractor's operation of the 13 air monitoring stations located in Mexico. ARB is also operating two air monitoring stations in Calexico, California. The \$510,000 will be used in the following manner: \$360,000 in contracts for ongoing operations; \$100,000 in field and laboratory equipment; \$37,500 in operational and laboratory supplies; and \$12,500 in travel to and from the air monitoring stations as well as training, conferences, and workshops.

### Planning and Technical Support Portion:

The \$15,000 portion of the Mexico Border Grant for 2005 will be used for travel expenses related to staff involvement in the following activities:

- Participation in cross-border coordination activities conducted by the Tijuana-San Diego and Imperial County-Mexicali air quality task forces under the Border 2012 U.S.-Mexico Environmental Program.
- 2. Participation in Air Policy Forum and California-Baja California Regional Workgroup meetings to provide input on border-wide and local air quality issues.
- 3. Technical assistance to local agencies in the development and implementation of air quality improvement strategies.
